Tech Lead	Ram	*Ram*	27-04-2026
Compliance Head	Charan	*Charan*	28-04-2026

Scope of the Document

- Current scope - Mutual fund investments
- Future plans – Stocks, Bonds, ETFs, and more

Executive Summary

Business Problem Statement

Though there are multiple platforms to manage personal investments, there aren't many that are comprehensive enough to address all the requirements of investors. Alaka Digital Investment Platform is designed as a solution to this.

Business Objectives

- Ensure a comprehensive digital platform for personal investments as per RBI and SEBI regulations
- Enable investments in mutual funds and much more
- Enable purchase of all types of mutual funds, including Equity, Debt, Hybrid, ELSS, and more
- Allow portfolio tracking and perform analysis
- Support lumpsum investments and systematic investment plans in various categories
- Ensure all transactions are secure as per the regulations
- Help investments in stocks, bonds, ETFs, and more in future

Scope (Current & Future)

Current Version	**Future Enhancements**
• Investor onboarding • All mutual fund categories • Lumpsum/SIP • Portfolio dashboard • CAMS/KFintech statements • Nomination	• Stock/Equity trading • Bond purchase

External Stakeholders

Retail Investors	**Role**	**Interest**
Retail Investors	End user	Investment & Portfolio view
Retail Investors	End Users (premium)	Investment & Portfolio view Detailed analytics

Fund Houses	External Partner	Order confirmation NAV data feed
BSE/NSE	External system	Order execution
CAMS/KFintech	External system	Order execution
UIADI	Regulatory body	Verification
CKYC Registry	Regulatory body	KYC data sharing
AMFI	Regulatory body	Distributor regulations
SEBI	Regulatory body	Regulations
RBI	Regulatory body	Regulations

Internal Stakeholders

Stakeholder	Role	Interest
Product Owner	Internal	Road map, feature prioritization
Tech Lead	Internal	Technical feasibility, architecture
QA	Internal	UAT

Business Process

Current State

Multiple applications and websites are available. But process is not easy in many.

Proposed Solution

A simplified digital solution for all investment requirements.

1. Investor registers on web portal or downloaded application.
2. Perform digital KYC.
3. CKYC validation or submission.
4. Profile creation and risk evaluation.
5. Bank account linking.
6. Mutual fund analysis by the user.
7. Fund selection, payment option, payment initiation
8. Order routing to BSE/NSE for execution at applicable NAV
9. Unit allocation and confirmation.
10. Portfolio dashboard update

Quick and easy investor onboarding with facilities like real-time status, single portfolio view, reducing operation costs and improving efficiency.

Future expansion

Phase 2	Stocks and equities
Phase 3	Bonds
Phase 4	ETFs

Business rules

Investor Eligibility

- Must be an Indian resident
- Must be minimum 18 years old. Minors can invest through a guardian (additional documentation needed)
- For investments above a specific limit (as per AMFI mandate) in a year, PAN card is mandatory.
- Premium users: Net investments above 2 crore or single transaction of 5 lakhs and above

KYC Rules

- KYC is mandatory for all investors
- CKYC validation must be done first, before submitting new KYC
- eKYC has limitation. For full transaction capability, full KYC must be done
  Investment Rules
- Minimum investment is according to AMC rules
- Minimum investment in sip is as per SEBI guidelines
- Maximum investment per transaction is as per NPCI/NACH limits
- NAV-applicability is as per SEBI guidelines
- ELSS lock-in as per SEBI guidelines
- SIP installments can be configured as per the date available options
- SWP allowed after a minimum holding period set by SEBI

Payment Rules

- Accepted payment modes – all payment modes approved by RBI
- All payments shall be confirmed through message before order submission
- After payment failures, money is reversed automatically with failure notification
- Refunds will be done as per the RBI norms

Regulator Compliances

- SEBI Guidelines
- RBI Orders
- KYC Regulations and Norms by the Govt.
- IT Regulations

Functional Requirements

Investor sign up and KYC

ID	Description	Priority	Comments
